

Dear **Parochial** Parents,

TechyTots is a brand new extra-curricular class at our school, featuring technology and play to introduce children to coding. The aim is to work on the first steps of coding with children at a young age, to help prepare them for the technical world.

At TechyTots, we encourage children to develop early coding skills by using robots and the most advanced 'Techy' toys available. We also use unplugged play and activities which encourage problem solving skills, critical thinking, sequencing, early math skills and early programming, which are not only educational but also lots of fun too!

TechyTots have been running successful breakfast and after school coding classes in primary schools across the North East. The club will include termly topics and a curriculum-based scheme of work with robots that are designed to teach children coding skills.

#PlayLearnCode

Spaces are limited to 16 children, from Years 1 and 2, therefore please fill in the form below ASAP and hand into the school office. Places are on a first come first served basis.

Class Details -

- Classes are £4 per session, for the 6-week course it will be £24 (Bank Transfer)
